C&WHC Laboratory Research Fees - Appendix 1

Level assigned will be determined by the Research Facilitator, Lab Services based on the complexity of the study.

^a Up to a maximum of 1 hour to review

^b Up to a maximum of 2 hours to review

^c Up to 3 hours or greater to review

^d Up 1 to 4 hours for lab set-up

^e Up 4 to 8 hours for lab set-up

^f >8 hours for lab set-up

^g Applies to Central Lab Collection Kits with minimal to moderate test tube processing (1-4 tubes)

^h Applies to Central Lab Collection Kits with extensive test tube processing (5 or more tubes)

ⁱ Applies to studies where all preliminary work is completed by the investigator including collection, labeling, processing, centrifuging and placing sample into appropriate containers/cups ready for loading onto a lab analyzer. The appropriate analyzer containers/cups will be provided by the laboratory. The samples must be labeled and assurance must be provided that non-laboratory staff collecting and centrifuging blood specimens meet Laboratory Standard Operating Procedures for the blood collection and sample preparation. The samples will not be logged into the Lab Information System. Samples must be batched. Analyzer printouts containing results will be provided to the investigator who will be responsible for data transfer.

^j Applies to a proviso that some special testing, as determined by the division head, may have a different costing scheme.
